8th International VKII Symposium
Scientific and Technologic Forum of the Cameroonain Diaspora
Wissenschaftliches und Technologisches Forum der Kamerunischen Diaspora
Forum Scientifique et Technologique de la Diaspora Camerounaise

Stand description e.g. fields of activities and planed action items for the symposium

- Maviance GmbH will be presenting its Smart Mobile Application Platform during the symposium and shall focus on challenges addressed via the platform
- As a case study for addressing African specific problems, maviance will present its Mobile Metering System that is built on the Smart Mobile Application Platform. It is a wireless mobile application with a remote server component that uses the flexibility and availability of mobile phone networks to provide field operators with a full functionality to perform meter readings, print bills and collect payments at customer site.
